Head Teacher: Mr. P. Craig

03/03/2023

Dear Parents/Carers,

We all want to support children in developing their mathematical skills, but how can we actually do it?

A play-based approach is our best friend. Inviting children to play games means quality family time, building mathematical skills without stress and ultimately having fun.

At St Joseph's, we believe that mathematics is fun and we would like to invite you to our very first **Family Games Night on Monday 20th March in the school hall from 3:30pm until 4:30pm**. This is a free event!

During this event, there will be a range of games available for you to play with your child(ren), lists of free games that you can take away and play at home as well as guidance and support from our staff.

We would love to see as many of you there as possible.

If you would like to come along and have some fun, please submit your form by clicking on this link [Maths Family Games Night](#)

We look forward to seeing you there and making this event a fun and memorable one.

Yours sincerely

Mr P Charlton
